Summary

Aspiring web designer with a passion for the arts. Background in music education developed prominent skills: a passion to achieve, creatively capturing the attention of the community, working both individually and as a group, organizing and achieving goals for the short and long term. Persisting through challenges with optimism to accomplish learning HTML, CSS, and JavaScript through Northwestern's Coding Bootcamp. Ready and ambitious to create a career in web design.

Technical Skills

- HTML5, CSS, JavaScript, React, Mongo, Node, Express

Projects

Covid-Data-Search-App Live - <https://chitown-devs.github.io/COVID-Data-Search-App/> ||

Github- <https://github.com/ChiTown-Devs/COVID-Data-Search-App>

- Covid-19 Data Search is an application created with the goal of supporting users travelling inside the United States of America. The application provides users with accurate and real-time information about the status of the virus in a given location.
- **Tools used:** HTML5, CSS, Bootstrap, JQuery, JavaScript

The Kindness Club App Live - <http://kindnessclub.herokuapp.com/home> || Github -

<https://github.com/Project-2-Group-4/The-Kindness-Club/>

- The-Kindness-Club-App is an application created with the goals of bringing people together while they are using the application and having fun. After the year 2020, we all need something good in our lives. With this application the purpose is to provide easy acts of kindness that can be added to the user's daily routine. With kindness, the world will be a better place one day at a time.
- **Tools used:** HTML5, CSS, JavaScript, JQuery, Bcrypt, Handlebars, Sequelize, Node
